You

recommend a gift for a man who love to play sport, budget for the gift is $50

Assistant

For a man who loves to play sport and with a budget of $50, I recommend the Smart Fitness Watch priced at $89.90. However, it exceeds your budget. Within your $50 budget, there isn't a specific sports-related product available in the catalogue. If you can stretch your budget a bit, the Smart Fitness Watch would be an excellent gift with features like heart rate tracking, sleep monitoring, and step counting that are great for sports enthusiasts. Otherwise, there is no suitable sports-related gift under $50 in the current catalogue.

AI explanation: These Wireless Noise-Cancelling Headphones are a great match for your search because they fall directly under the headphone category. They offer the convenience of wireless connectivity, making them ideal for on-the-go use. The noise-cancelling feature enhances your listening experience by reducing background noise. At $129.90, they provide good value for quality sound and comfort.
